

“The best tomatoes to be selected during a Traditional European Tomato Tasting.”

A tomato taste was organized by the Spanish Harnesstom partners from the Agencia Nacional Consejo Superior de Investigaciones Científicas CSIC at the Instituto de Biología Molecular y Celular de Plantas de Valencia, as part of the activities of interaction with the interdisciplinary thematic platform Agrofor. The tasting took place at the Instituto Universitario de Conservación y Mejora de la Agrodiversidad Valenciana (COMAV) meeting room (Ciudad Politécnica de la Innovación, Ed 8E, Valencia Spain) on 13th December 2023 in sessions of 30 min from 11:00 to 13:00 hours. After a short introduction, participants were given the opportunity to taste a several of traditional European tomatoes selected from the Traditom and Harnesstom collection.

The tomato tasting activity was quite a success and close to 100 participants took part in the evaluation of 12 different traditional varieties that were cultivated by another HARNESSTOM partner Fundación Grupo Cajamar. Results of the taste are currently being analyzed with the aim that hose found as the best to be grown next year as part of the collaboration between NESSTOM and Fitonet.
